Colaboración:	CIFAL Merida

ANTECEDENTES

Air transport plays a critical role in sustainable development, supporting economic and social activities globally. However, environmental concerns remain a challenge, particularly in reducing CO₂ emissions. The MATSM aims to address

these issues by training professionals in sustainable air transport management, aligning with the United Nations 2030 Agenda for Sustainable Development.

OBJETIVOS DEL EVENTO

To train participants to hold managerial roles in the air transport industry, with a strong emphasis on sustainability, innovation, and efficient operations. The program prepares professionals to make informed decisions that promote sustainable growth in airports, airlines, and related sectors.

OBJETIVOS DEL APRENDIZAJE

- Understand the fundamentals of sustainable air transport systems
- Apply energy efficiency and CO₂ reduction strategies
- Evaluate organizational structures of airports and airlines
- Identify legal and policy frameworks in aviation
- Engage in proactive and critical discussions on corporate governance in the air transport sector

CONTENIDO Y ESTRUCTURA

The program covers sustainability in airports and airlines, aviation law, aeronautical industry management, and air navigation. It includes practical case studies, executive-level lectures, and concludes with a graduation ceremony at the United Nations in Geneva.

METODOLOGÍA

Fully e-learning, based on asynchronous modules, proactive discussion forums, and real-world case study analyses. Includes mentoring from top-level industry professionals and interactive learning components.

PÚBLICO OBJETIVO

Professionals seeking managerial roles in the aviation sector, including recent graduates and employees from airports, airlines, navigation service providers, and associated companies.
