- 3. □□□□□□□□□□ - □□□□

- 4. □□□□□□□□□□ - □□□□

This e-learning course is developed in English and Chinese and consists of four modules, including overall learning objectives, as well as learning objectives specific to each module. Throughout the lessons, participants are presented with formative “test your knowledge” questions to check comprehension of the concepts, examples and tools presented. The modules also comprise open-ended discussions (not graded) offered through the lesson section of the learning platform to reflect on the topics and share their experiences.

For this course to be the most rewarding and to teach you lessons that can be applied in your daily work, we recommend that you do not rush through the modules and complete a module in one sitting. Rather, you will better absorb the material by spending at least 3-4 days per module and stretching out the course over 4 weeks.

43-4

The course is free, and participants who complete the programme will receive a joint Certificate of Completion from UNITAR and Shanghai Climate Week.

UNITAR

PÚBLICO OBJETIVO

This online is available to all interested participants.

INFORMACIÓN ADICIONAL

The personal data of participants applying for, registering for, or participating in UNITAR’s training courses and events is managed in accordance with UNITAR’s Data Protection and Privacy Policy. By proceeding with the application, registration, or participation in this programme, participants confirm that they have read and agree to the terms of the policy. As part of the implementation of this programme, UNITAR is collaborating with Shanghai Climate Week. In line with our Data Protection and Privacy Policy, limited personal data may be shared with Shanghai Climate Week strictly for purposes related to programme delivery, coordination, and continuous improvement.
