

Sports for Climate Action: Online Training Programme for Sports NGOs

Planeta

Plazo: 13 Mayo 2025

Tipo:	Workshop
Ubicación:	Web-based
Fecha:	14 Mayo 2025 to 16 Jun 2025
Duración:	8 Horas
Área del programa:	Climate Change
Sitio web:	http://www.unccelearnr.org
Precio:	0,00 US\$
Correo Electrónico del Centro de Coordinación del Evento:	info@unccllearn.org
Colaboración:	UNFCCC (668), , adidas

ANTECEDENTES

As part of the global response to climate change, which requires the involvement of all actors of society, UN Climate Change gathered sports organizations and their stakeholders around a new movement for climate action. As a result, the [Sports for Climate Action Framework](#) was launched in 2018. This framework aims

to strengthen the sustainability of the sports industry while leveraging the widespread interest around sport activities to engage the public on climate change. The sports industry plays a role in emitting greenhouse gases that cause global warming. On the other hand, sports is not immune to the impacts of climate change. Athletes, sports infrastructure, logistics and events and communities engaging in sporting activities are all witnessing the result of rising global temperatures.

This is why UN Climate Change and UNITAR as the secretariat to the One UN Climate Change Learning Partnership (UN CC:Learn), joined forces with UN Climate Change and Adidas to develop this pilot training programme for grassroots and sports organizations to promote global resilience and solidarity in climate action, through the power of sports.

OBJETIVOS DEL APRENDIZAJE

After the online training, participants will be able to:

1. Describe the link between climate change, sports and its impact on different groups of people
2. Identify climate action measures and how they are applied in organizations
3. Illustrate how grassroots organizations can engage with and amplify action within communities
4. Identify opportunities for partnership building and stakeholder engagement at different levels
5. Identify leadership skills and empower the organization to drive climate action.

CONTENIDO Y ESTRUCTURA

The online training includes the following sessions and topics:

Pre-training Survey

Module 1: Basics of Climate Change

Module 2: Responding to climate change

Module 3: Engaging Communities in Climate Action

Module 4: Partnerships for Climate Action

Module 5: Climate Empowerment and Leadership

Final Quiz

Post-training Survey
