### ANTECEDENTES

Air transport plays a critical role in sustainable development, supporting economic and social activities globally. However, environmental concerns remain a challenge, particularly in reducing CO<sub>2</sub> emissions. The MATSM aims to address

these issues by training professionals in sustainable air transport management, aligning with the United Nations 2030 Agenda for Sustainable Development.

## OBJETIVOS DEL EVENTO

To train participants to hold managerial roles in the air transport industry, with a strong emphasis on sustainability, innovation, and efficient operations. The program prepares professionals to make informed decisions that promote sustainable growth in airports, airlines, and related sectors.

## OBJETIVOS DEL APRENDIZAJE

- Understand the fundamentals of sustainable air transport systems
- Apply energy efficiency and CO<sub>2</sub> reduction strategies
- Evaluate organizational structures of airports and airlines
- Identify legal and policy frameworks in aviation
- Engage in proactive and critical discussions on corporate governance in the air transport sector

## CONTENIDO Y ESTRUCTURA

The program covers sustainability in airports and airlines, aviation law, aeronautical industry management, and air navigation. It includes practical case studies, executive-level lectures, and concludes with a graduation ceremony at the United Nations in Geneva.

## METODOLOGÍA

Fully e-learning, based on asynchronous modules, proactive discussion forums, and real-world case study analyses. Includes mentoring from top-level industry professionals and interactive learning components.

## PÚBLICO OBJETIVO

Professionals seeking managerial roles in the aviation sector, including recent graduates and employees from airports, airlines, navigation service providers, and associated companies.
