| Prix:                                 | 1 500.00 \$US                                                                                                                           |
| Personne de référence de l'événement: | connor.flynn@chaminade.edu                                                                                                              |
| Partenariat:                          | CIFAL Honolulu, , Chaminade University of Honolulu, , NSF All-SPICE Alliance                                                            |

---

## ARRIÈRE PLAN

No coding experience or background knowledge of the SDG's required

## OBJECTIFS DE L'ÉVÉNEMENT

Understanding of the SDG's, a new data science skillset, a data science portfolio

## OBJECTIFS D'APPRENTISSAGE

Understanding of the SDG's, a new data science skillset, a data science portfolio

## CONTENU ET STRUCTURE

Asynchronous pre-recorded videos, weekly due dates for code submitted to Github Classroom, Final Project

## MÉTHODOLOGIE

The intent of the content is to give a friendly, guided, engaging introduction to coding in R through the lens of SDG data. The short time period allows participants to get a feel for the coding language and content which will hopefully inspire them to pursue data science further

## AUDIENCE VISÉE

Students, professionals, and enthusiasts
