#### BACKGROUND

In partnership with the UN CIFAL Honolulu center here on campus, the Chaminade garden intends to illustrate a number of Sustainable Development Goals (SDGs) throughout the event. This will encourage participants to integrate SDG considerations into their own lives, thus pushing us forward towards a more sustainable future.

## EVENT OBJECTIVES

(1) We recognize our kaiāulu is richly diverse, but our foundation is Hawaiian. Because of this, (2) we hope to leave participants with an illustration of what a worldview rooted in aloha 'āina looks like and how it could come to inform everyday sustainable decision making.

## CONTENT AND STRUCTURE

The gardening staff played a game with the 5th graders called “Plant buddies and taught the 5th graders about the circular system and made a kilo board. Students then got to work in garden.

## METHODOLOGY

For this event we hope participants find that service to our 'āina is service to a more just and peaceful world; that our piliina with 'āina is not separate, but integral to our respect for the integrity of creation.

## TARGETED AUDIENCE

5th grade students
