The 2nd UNITAR International Research Conference will be held in the **UN Offices in Brussels, Belgium** from **3rd - 4th December 2024**. Held annually, since 2023, the UNITAR International Research Conference provides an opportunity to academics, practitioners, NGOs, students, and members of the business and international community to present their work, publish their results, exchange ideas, and network for accelerating the delivery of the SDGs and establishing and enhancing collaboration.

The UN 2030 Conference is the flagship conference of UNITAR, UoC and TU Dublin focussing on education for sustainable development supported by alternative and innovative pedagogies. This conference is part of a series of conferences that will rotate among the EUt+ members and interested Universities at the global level through different locations during 2024 - 2028.

The Conference venue is at the UN House, Boulevard du Régent 37-40, 1000 Brussels.

The 2nd UNITAR International Research Conference will continue to serve as a catalyst for connecting local and international stakeholders, around the theme of UN 2030 Agenda and the SDGs, hence adding value to the global dialogue on how to contribute to the advancement of education for sustainable development that will contribute to policy making and to enable open research and collaborative opportunities for researchers, academics, learners, and relevant stakeholders around the world.

The 2nd UNITAR International Research Conference's theme, "UN 2.0: Our Common Agenda and the Role of Higher Education in Conflict Peace and Development," encompasses a broad range of topics divided into several streams such as SDG Leadership, Climate Action, Health in Conflict Zones, and Economic Models for UN 2.0.

The event will feature both in-person and hybrid formats, including pre-conference workshops at various universities. Participants, including academics, practitioners, NGOs, and business community members, are invited to submit

papers on innovative and interdisciplinary approaches in higher education and sustainable development.

Accepted papers will be published in the conference proceedings. The document also lists the organizing committee members and highlights the conference's role in fostering global collaboration and informing policy-making.

The 2nd UNITAR International Research Conference invites the submission of papers that employ cross-disciplinary, multidisciplinary, interdisciplinary, and transdisciplinary approaches, emphasizing innovative and alternative pedagogies for Education for Sustainable Development (ESD). Furthermore, the conference promotes the integration of research and practice, encouraging case studies, real-life examples, and ethical considerations in educational settings. The aim is to develop a new educational model (ANEM) that aligns with societal needs and advances SDG leadership and literacy through personalized and community-engaged learning journeys.
