The United Nations Sustainable Development Goals (SDGs) provide a comprehensive framework for addressing global challenges and achieving sustainable development. This webinar will explore how the Sustainable Development Goals can be the foundation for economic development, growth,

and prosperity. Presenters will explore how the SDGs can be integrated into day-to-day activities to effectively create positive economic, social, and environmental impacts in their communities. The series will cover various topics that play a role in sustainable economic development, including Entrepreneurship, EDI, Supply Chain Management, Import/Export, Water Management, and Community Development.

The key goals and objectives of the speaker series are to:

- Understand the United Nations Sustainable Development Goals and their significance in the context of economic development and entrepreneurship.
- Identify the specific SDGs that directly impact the work of economic developers and entrepreneurs.
- Explore strategies for integrating the SDGs into economic development practices and initiatives.
- Share the skills and knowledge needed to effectively measure and track progress towards the SDGs.
- Learn how to integrate the SDGs into day-to-day activities to create positive economic, social, and environmental impacts.
- Gain insights into the role of Entrepreneurship in sustainable economic development.
