UNEP (502)

The USEtox knowledge course aims to provide the learner with an understanding of the USEtox's purpose, methodology, benefits, and applications, supporting capacity-building efforts for chemical management. The course materials include a short video explaining USEtox, its workings, accessibility, and real-world applications, along with five fact sheets covering key aspects such as an overview, benefits, user groups, access, and methodology.

The learning materials are designed for:

- Government agencies responsible for chemical regulation
- Researchers and academics in environmental science
- Industries involved in chemical production and sustainability
- NGOs and policy advisors working in environmental impact assessment
- Students in environmental toxicology and life cycle assessment studies

TECHNICAL REQUIREMENTS

The course can be completed on any computer (Windows and Mac) or mobile device. Any internet browser is compatible as long as it has been updated to its latest version.
