The 2030 Agenda for Sustainable Development, adopted by all United Nations Member States in 2015, provides a shared blueprint for peace and prosperity for people and the planet, now and into the future. At its heart are the 17 Sustainable Development Goals (SDGs), which are an urgent call for action by all countries - developed and developing - in a global partnership. They recognize

that ending poverty and other deprivations must go hand-in-hand with strategies that improve health and education, reduce inequality, and spur economic growth – all while tackling climate change and working to preserve our oceans and forests.

This introductory course on the Sustainable Development Goals will provide the base to start learning more about the process of the 2030 Agenda and its involvement at governmental and non-governmental level, the private sector and the different citizen actors of the civil society.

- To describe the 17 SDGs and the 2030 Agenda to better understand them and the challenges in achieving it.
- To create a space for collaboration, negotiation and communication to promote and understand the SDGs as well as the self-reflection skills, values, attitudes and motivations that enable learners to develop them.
- To share examples and good practices where the work of political authorities and other local administrations can contribute towards these goals.
- To analyse from a theoretical and practical point of view the implications of civil society.
- To include professionals from every discipline to tackle these goals.
- To understand the concepts of sustainability and to analyse the needs of our current society in order to generate a systemic approach to the sustainable development.

Module 1: FROM THE MILLENNIUM DEVELOPMENT GOALS TO THE SDGs

MODULE 2: THE 17 GOALS TO TRANSFORM THE WORLD

MODULE 3: STRATEGIES SO THAT NO ONE IS LEFT BEHIND

MODULE 4: FREQUENTLY ASKED QUESTIONS AND THEIR ANSWERS

Module 5: Nine years of progress and six years for action

e-Learning: The course is internet-based, moderated by a CIFAL Malaga expert on SDGs, asynchronous, and places emphasis on online discussions and self-paced learning. The participants will be primarily responsible for their own learning over the duration of the course. The course will consist of the following components:

- Compulsory and optional reading material, intended to teach the basic concepts and principles of the module's subject-matter;
- External links to additional books, articles, documents, and websites related to the modules;
- Quizzes and case studies at the end of each module. To be eligible for the course certificate, a passing grade of 80% on the final quiz is required;
- The course includes a tutoring system through the virtual platform Forum or e-mail, so that the student can contact the teacher of the course without any problem in case of any doubt.
- A Community Discussion Board is also available for participants to post questions or comments visible to the instructor and other participants.

All sectors of society: political authorities, public officials, enterprises academics, non-governmental organizations, students and society at large.

- The students of this course should be elite athletes of the Spanish Olympic team or professional staff of the institution.
- Participants will be eligible to receive a certificate of completion after the successful completion of the course.
- The course is offered in Spanish.
- We highly recommend credit card or PayPal payments.

- We recommend the following as a minimum in hardware and software to take our e-Learning courses.

Platform: Windows 95, 98, 2000, NT, ME, XP or superior; MacOS 9 or MacOS X; Linux

Hardware: 64 MB of RAM, 1 GB of free disk space

Software:

- Adobe Acrobat Reader
- Adobe Flash Player
- Microsoft Office (Windows or Mac) or Open Office
- Browser: Internet Explorer 7 or higher; it works better with Firefox 3.6 or higher
- Note that JavaScript, Cookies and Pop-ups must be enabled
